

# Deer Park Fire Air Quality Concerns

**POISON**  
**Help**  
1-800-222-1222

The most common symptoms for someone who has been exposed to the vapors will be respiratory irritation that is short term and should subside within hours. Long term effects are not expected at the levels reported. If you have questions or concerns regarding a possible exposure please call our poison specialists at

1-800-222-1222
